We are a small family ran business that sells Organic and Natural beard care. We have been doing this for over 3 years. We have many online customers from all of the US and all around the world. We just landed a distributor in the UK. But we want to get back to where we started and find the locals. We are located in Petal, Ms. I can meet up just about anytime or I can ship to you just as easy. Online our items go for \$13 a piece or \$25 for a combo. For locals I want to do it at \$10 a item. So \$20 for a combo. We have Organic and Natural Beard Balms, Beard Oils and Aroma Sprays currently. We also have some clothing with our company logo. We have much more coming such as womens organics, beard wash and beard butters to name a few items. Message me anytime if you would like to check out what we have or if you want I can ship it to you as well as we ship daily.
